Introduction

Leeds College of Music and its Students' Union are committed to working together to assure and enhance the quality of its education provision. This includes a coherent and systematic approach to student representation at all levels within the conservatoire.

The purpose of the Student Engagement Policy is to ensure that student engagement activities are implemented consistently across the conservatoire and that students are active partners in their learning and in defining the academic and strategic direction of the conservatoire.

The conservatoire encourages the views of students, individually and collectively, in informing quality systems with the purpose of improving the student educational experience both for current and future cohorts. The delivery and development of all aspects of the student educational experience can be positively influenced by student engagement.

The conservatoire has a firm commitment to:

- Ensuring that its processes for engaging with students allow sufficient opportunity for students to provide feedback;
- Providing mechanisms for the management of quality and standards through student engagement and partnership;
- Providing all students with the opportunity to make their views on their educational experience known to the conservatoire, and that these opportunities are made known to students;
- Considering and acting on feedback from students;
- Informing students of what we have done in response to feedback;
- Ensuring that processes for engaging with students do not make disproportionate demands on the time of students and staff;
- Identifying opportunities for enhancement of the learning experience
